Welcome to Premium Abrasives.

Australian trade professionals have come to know that the promise of quality and durability in a range does not alone assure a job well done. Since 1994, Premium Abrasives has completed the service circle by filling the gaps, and grown successful on it.

Premium Abrasives offers national product supply, outclassing value for money, support and customer satisfaction offered elsewhere. Our 'Always in Stock' policy means your order arrives where you want it, when you want it. A real commitment to strengthening relationships and maximizing growth potential keeps regular customers returning to Premium, and new business knocking. Along with being an Australian-owned company, they're all assets we're proud of!

If you are a prospective new customer, I welcome you to view our products and services and join a growing network of trade professionals who know the 'Premium' difference; who speak of keenly-priced, high-performers, quality assured.

If you are an existing patron, I encourage you to review our complete range and ask how to better satisfy your market's growing need for products that look great and work hard, on and off the shelf, with those from Premium Abrasives.

In advance, I offer you satisfaction gained from aligning yourself with a truly reliable company, remarkable product and the people at Premium Abrasives. We look forward to knowing you.

A handwritten signature in black ink, appearing to read "John Clark", written in a cursive style.
